Petersburg, August 8.

AST Saturday Night Velt Marshal Munich's Adjutant General arrived at Peterhoff with Letters dated the 24th of July, by which his Excellency informs her Majesty, that the Turkish Army was on the other Side of the River Dnieper, so that they did not seem willing to ha-

a Battle, at least on this Side the River, as he expected they would. The Day before the Courier out, above 15,000 Tartars and Turkish Horse attacked the Velt Marshal's Advance Guard, but were repulsed with great Loss.

From the Camp of the Imperialists at Semendria, 22. Last Night, to the great Surprise of the Army, an Officer arrived from Orsova, with an Account of the Garison having on the 16th capitulated to the Turks to surrender the Town on the 17th. The Turks had 150 Cannon mounted, with which they kept a continual Fire till the 13th, when they moved the Town to surrender without having made a Breach of any Consequence; but the Garison reduced to 500 (the Detachment of 200 from the 10th, being in that Number) they yielded; and marched on the 17th, and were escorted to Vipalanka: 20 Men of the Garison had died of the Scoury the 15th of July; and there is Reason to believe the Plague also was rife in the Place.

Sept. 12. O. S. The Baron de Droff or Nephew of the Baron de Neuhoft, arriving at this City, was immediately apprehended and confined to the Fortrefs, where he is under close Confinement, with a Keeper always in Sight of him. They say, that the Reason of his Arrest, is his having contributed to the Defection of several German Soldiers who were here, and are since gone over to Corsica: And 'tis just now reported, that the Baron de Neuhoft was seen last Week at a Country House in the Neighbourhood of this City.

SCOTLAND.

Dunbar, Aug. 31. Yesterday the Session of Haddo's Hold petitioned the Presbytery to translate Robert Wallace from the New Gray Friars to their Ministry. It was objected to this, That such a Change was by no Means regular, nor in the Power of the Presbytery to grant; for by the Regulations which had been mutually agreed to, between the Magistrates and Presbytery, it is expressly provided, that an Application must take its Rise only from the Magistrates and Town Council, and that they are the Judges when it is fit; for the Words of the Regulations run, 'Whenever the Magistrates shall judge it for the Good of the City, &c.' And as the Presbytery was one of the contracting Parties, it will be look'd upon as a Breach of publick Faith, should they act otherwise than according to the common Agreement; that they were bound up, and had no further Power than the Regulations (to which they themselves had assented) allowed, and, in some Cases, were Parties, since the Contract was mutual; therefore since the Session of Haddo's Hold had broken the Magistracy, the Presbytery could not grant their Concurrence grant the Petition. To this it was replied, That if such Reasoning was good, then it would follow, if the Magistrates should Concur with a Session, the Presbytery could never do any thing in the Settlement of a Ministry, which was absurd; that the Regulations were made with no other Design than to restrain that arbitrary Method of the Magistrates, who without consulting or consulting the Session of the vacant Ministry, used to pass an Act for translating Ministers, and only after apply to the Presbytery to have it made effectual; against that unheard of Way was the Regulation design'd, which expressly tied down the Magistrates to do nothing in such a Case without the Consent of the vacant Session: And here should the Presbytery refuse the Petition, it would be of no Advantage to any of the Parties concerned, for the Magistrates could never have Dr. Wishart settled

there, while the Session unanimously opposed him; and by the Reasoning on the other Side, the Parish should be for ever vacant; the Presbytery had an antecedent Power to the Regulations of acting in such Cases as was most proper; and they could not be said to have lost that Power which they could not make over, and was inherent in them as a Church Judicature; and as there were now two contending Parties before them, viz. the Magistrates and Haddo's-Hold Session, who remained to decide the Difference but the Presbytery? and therefore they could not be looked on as Parties, &c. After a great deal of Reasoning, it carried that the State of the Vote should be, Translate Mr. Wallace or not? It carried by a great Majority, Translate. Against this Sentence the Magistrates protested, and reserved Liberty to seek Redress *omni habili modo*. Mr. Wallace is appointed to enter on his Ministry in Haddo's-Hold Parish the 4th Sabbath of September next.

Tuesday last his Grace the Duke of Montrose arrived here from his Seat at Buchanan, on his Way to London.

At the Fair of Falkirk last Tuesday, Black Cattle went off at a good Price, above 30,000 l. Sterl. worth of them having been sold out.

Birts, till a Letter from the Trustees can be obtained, to satisfy the Contributors of the just Application of the said Sums.

Body that heard it: It happened when the Air was serene and clear, and the Crack, which was very sudden and very violent, was succeeded by a rumbling Noise that lasted for the Space of a Minute: It was heard 15 Miles round; but nobody can account for it, and no one ever heard the like.
